

TECHNICAL DATA

# Fluke BHT190 Break-Out Adapters for Industrial Bus Connections

## Key features

Set contains:

- Break-out adapter DB-9, male-to-female. Gives access to pins 1 thru 9 and shield.
- Break-out adapter M12, with cables, male-to-female. Gives access to pins 1 thru 5.
- Break-out adapter RJ-45, female-to-female with patchcable (patchcable not shown on photo). Gives access to pins 1 thru 8 and shield.

## Product overview: Fluke BHT190 Break-Out Adapters for Industrial Bus Connections

Set of break-out adapters for the three most common industrial bus connection systems M12, DB-9 and RJ-45. Each board works as a straight-through connection for the bus cable and gives access to the individual wires and pins of the connector system for hooking up probes.

## Specifications: Fluke BHT190 Break-Out Adapters for Industrial Bus

## Connections
