

SafeCount LCD Display Screen

Key features

- Notify building-users when it's safe to enter an area
- LCD display screen with customizable messaging
- Pair with SafeCount sensors for automatic updating

Product overview: SafeCount LCD Display Screen

Add a display screen to your SafeCount system so building users can see if it's safe to enter an area with a quick glance. Each display screen can pair with your people counting system to display custom messaging on the LCD screen.

Where to install

Both of the 10-inch display screens are designed to help ensure social distancing in:

- Office areas
- Meeting rooms
- Restrooms

Since the larger, 21.5-inch display screen is designed to be easier to see, it's great to install in higher-traffic areas like:

- Entrance kiosks
- Cafeterias or dining halls
- Office areas
